- + Ideal choice for thermal + sound insulation
- + Investment + curb appeal
- + UV protection for furniture, furnishings + flooring
- + Low maintenance + allergy free
- + Easy to use + clean

compare the difference

premium design

With Australia's largest range of choices, you can be assured that your shutters are the most premium design on the market.

elliptical blades

Our shutters use elliptical shaped blades which are designed to increase the blade closure for privacy, light control + to assist with less build up of dust.

clear view

Our clear view control is designed with a tilt rod concealed at the back of the panel to rotate the blades, ensuring unobstructed views through open blades.

aluminium core

Our PVC shutters are made with an aluminium core which strengthens the blades + panels, adding extra support for a more durable longer lasting shutter.

moisture resistant

Our PVC shutters are resistant to moisture + humidity, making them ideal for wet areas such as bathrooms + kitchens.

add insulation

Our shutters are an ideal choice for thermal insulation - Open the blades to stream light into rooms + close to insulate, offering you a more energy efficient home all year round.

CUSTOM FIT

Our shutters are designed + manufactured to fit your exact window + door dimensions

transform your facade

Let's not forget about how shutters can transform the facade of your home. Installing our shutters across your home's front windows can make a huge impact to your home's curb appeal. Along with these aesthetic benefits, our shutters will add sound insulation from outside road + traffic noise.

pvc shutters

For increased strength + durability, our new generation PVC shutters are constructed with high grade extruded Polyresin + an aluminium core in each blade + panel.

Our PVC shutters have the added benefits of being UV, water + moisture resistant to withstand fading, cracking or warping. Not affected by moisture or humidity makes them ideal for high use areas + wet areas such as kitchens, bathrooms + laundries.

Choose from our large range of **PVC premium** shutters, or our curated range of **PVC essential** shutters.

PERFECT FIT

Our PVC shutters are suitable in all rooms in your home not just wet areas

- + Durable aluminium core
- + UV, water + moisture resistant
- + Ideal for wet areas
- + Choose from PVC premium or PVC essential range
- + Painted colour options

timber shutters

Our timber shutters are constructed from premium grade 100% solid timber, rather than faux timber or wrapped or hollow blades, which is grown from sustainable tree plantations. The quality medium density timber which is lightweight allows good resistance to knocks, bumps, bowing + warping, making it ideal for shutters.

- + Timeless beauty of timber
- + 100% solid timber
- + Timber grown from sustainable plantations
- + Choose from Australia's largest range of painted + stained colours

aluminium shutters

- + Suitable for indoor + outdoor
- + Control privacy, light + views
- + Increase security with locking systems
- + Protection from heat, wind + rain
- + Increase insulation + energy savings
- + Create an enclosed outdoor living area

Our aluminium shutters can be installed indoors or outdoors + adapted to any form of installation, whether it be hinged, sliding, bifold, french doors or simply fixed in place. They provide stylish, practical + affordable solutions for patios, balconies, verandas + windows, allowing you to take control of your privacy, security, ventilation, light + views. Our aluminium shutters are a great alternative to use inside your home as they can be custom designed to large widths.

HINGED

The most popular style, suitable for small to large size windows, usually with one or more rectangular panels hinged in a variety of configurations. They are available as single hinged panels or double hinged panels so the panels can fold back on themselves.

**BI-FOLD**

Bi-folds are installed on tracks with up to eight panels bi-folding off one another + always come with an even number of panels. Used most commonly on doorways but also perfect for windows with larger widths + heights. An ideal choice for seamless indoor/outdoor living spaces + servery areas. When folded open you can maximise window views + natural light.

**SLIDING**

Perfect to cover wide widths + the ideal option for sliding doors to match back to your windows. Panels slide on tracks + are installed on a top track with a sleek fascia + either a bottom track or bottom guide. This style has the ability to slide the panels past the window to maximise window views + natural light.

for you

SMOOTH OPERATION

Choose from our three blade sizes all of which ensure an easy + smooth operation

63MM

Suitable for most window sizes, including french doors.

89MM

Our most popular size which offers a more contemporary look + optimises the amount of light.

114MM

Make a design statement on large or very tall windows. For aluminium shutters, the largest blade size is 115mm.

ASTRAGAL STILE

Closes the gap between panels. The best choice to eliminate light gaps for superior light control + privacy.

RABBET STILE

Panels interlock to give more light control than the butt stile.

BUTT STILE

Panels meet together without any additional moulding.

WHAT'S A STILE?

Our stiles support the blades in a shutter panel.

select frame

STEP

5

frames

Select from Australia's largest range of frame designs to match your shutters with your home interiors. Our custom range of frames are designed to fit the style + size of your window + complete the look of your shutters. Our frames are mounted on your wall or window, then your shutter panels are mounted inside the frame for a beautiful, professional finish.

STEP

6

select control

CLEARVIEW

Contemporary clean lines with the tiltrod, which is used to rotate the blades, concealed at the back of the panel ensuring unobstructed views through open blades.

CENTRE TILT ROD

Tiltrod is centred on the face of the panel providing the traditional look of plantation shutters.

OFFSET TILT ROD

Tiltrod is off set to the side on the face of the panel for a classic look but with less obstruction to views through open blades.

colours

We offer endless decorating possibilities with our extensive colour range. Choose from crisp whites to warm timber stains - whether your home is contemporary or classic, we have a colour to suit.

Custom colours are also available to match your shutters with your wall paint or furnishings.

We also offer the choice to mix + match your panel colours + frame designs so you can create a style all your own.

We offer a range of hinge colours - choose from antique brass, bisque, black, nickel plated, pearl, stainless steel or white.

shapes

Don't fear if you have irregular shaped windows or doors - we manufacture to fit any size or shape: angles, arches, circles, ovals, triangles, sunbursts, hexagons or even octagons!

DESIGN SOLUTIONS

Special custom shapes to suit unique window + door designs

superior finish

A smooth durable paint finish which includes three PU primary paint undercoats + a PU top coat, with anti-scratch components + UV-inhibiting finishes which resist staining, fading + yellowing.

easy to clean

Our shutters are low maintenance - an occasional quick wipe down is all they need to keep clean.

Dust does not collect on shutters in the same manner it does on fabric, making them more suitable for those who want to avoid dusty environments.

door + window cut outs

Our shutters can be made with cutouts for door handles or window winders. Cutouts are available rectangular or curved.

ENDLESS OPTIONS

As we individually design + manufacture each shutter the design options are endless!

doors

We can fix our shutters onto doors, allowing no interference when doors are opened + closed.

The largest range of custom made curtains+blinds+shutters+outdoor.
