- + Market leading materials, manufacturing processes, advanced technology + quality control systems
- + Authentic 100% custom made handcrafting without any pre-fabrication or shortcuts
- + Australian Business Quality Award Winner
- + Best of Houzz Service Award Winner

why choose dc+b roller blinds

The beauty of our Roller Blinds is their ability to control light, block out heat and glare and disappear when required without making their presence obvious. Whatever the size, shape or style of your window, we have a Blind treatment to match in a multitude of styles and countless fabric colours, textures and transparencies.

At dc+b our Blinds are proudly made in Australia which means you can be sure of a higher standard of quality, more variety and better service; all vital advantages. We manufacture our Blinds ourselves which means we can charge you less and offer you more - less hidden costs means factory direct prices and more value for your money.

- + Affordable
- + Sleek + Contemporary
- + Slimline fit
- + Maximise views
- + Low maintenance

- + Made for you - Australian made, for the Australian market
- + Flexibility - Choose your style, fabric, transparency, colour, finish, control type + accessories from Australia's largest range
- + No short cuts - 100% custom designed + manufactured
- + Consistent quality - Every Blind goes through stringent quality control testing
- + Market leading - The highest quality fabrics + componentry made to last in Australia's harsh climate

compare the difference

The difference in our Roller Blinds is in the detail and that's important given the major investment entailed in choosing your window coverings. We use a top of the line technically superior hardware system from Rollease Acmeda. Perfected by years of extensive research and development, the system has been designed for precision operation. Our Blinds are also designed with extra componentry as standard, at no extra cost, to ensure the most durable and long lasting Roller Blind available.

our roller blind system

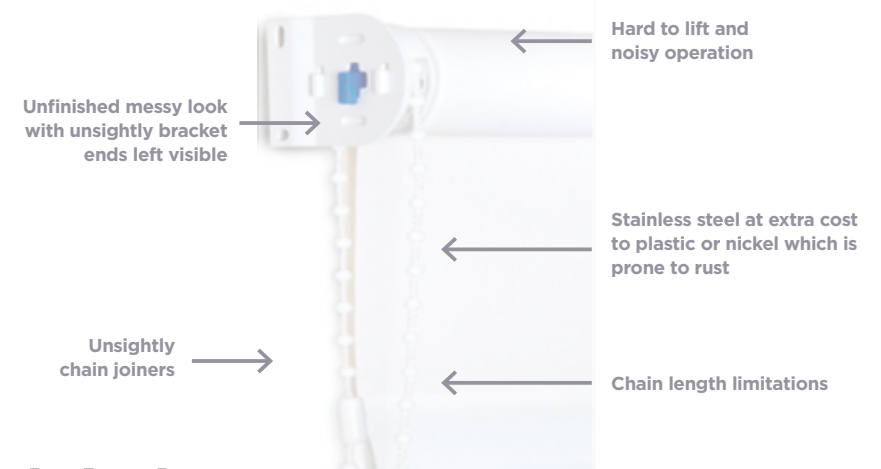

- + Peace of mind with our child + pet safe controls
- + Contemporary aesthetic to compliment your interiors
- + Sleek + slimline componentry with high polish finish
- + Slender construction creating reduced light gaps
- + Smooth + quiet operation
- + Easy to lift - Reduced user effort to lift heavy Blinds
- + Increased load capacity + ability to cater to large Blind widths
- + Tested to withstand 10,000 full cycles
- + Slim architecturally designed aluminium bottom rails for increased strength, durability + controlled movement of Blind during operation
- + Colour coded brackets + covers
- + Add on Easy-Link system controls up to three Blinds on the one window perfect for open plan living

TOP OF THE LINE

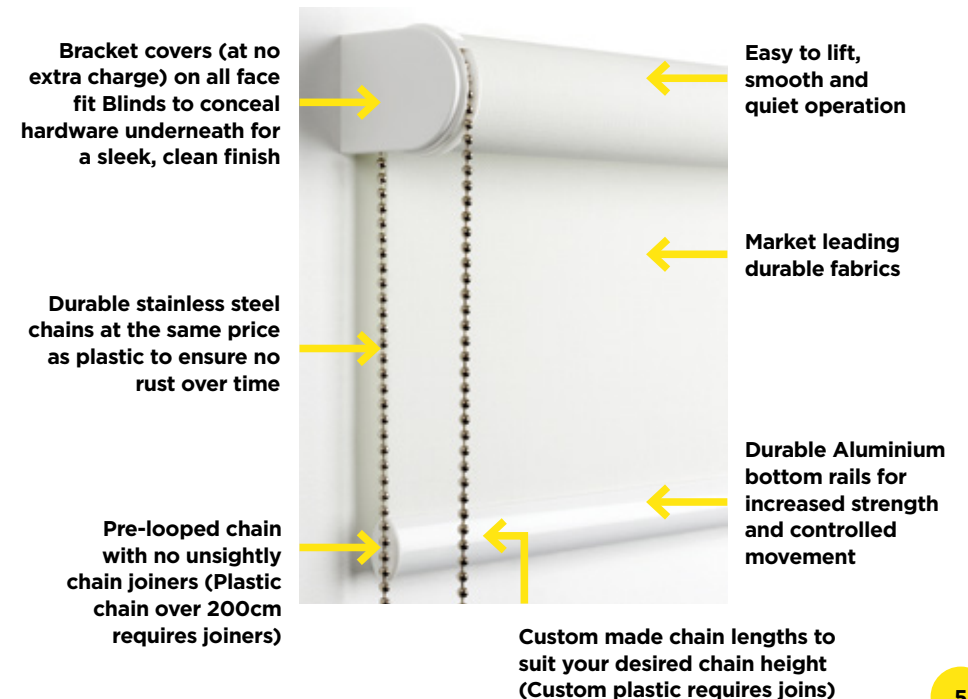

The most innovative and comprehensive Roller Blind system on the market

other blinds

our blinds

our customisation

Choose your install, style, fabric, control type, and accessories to create Roller Blinds that are suited exactly to your needs.

STEP 1 select install options

FACE / ARC FIT

- + Blind installed on window frame (arc) or wall
- + Improves blockout of light + privacy
- + When rolled up allows you to maximise your views + the natural light entering into your home
- + Ideal choice if installing our Roller Blind by itself on your window

RECESS FIT

- + Blind installed inside window frame
- + Ideal choice if installing two Roller Blinds on the one window or if layering another product over your Blind
- + **Important note:** If chosen without another blockout product layered on top then there will be light gaps between your Blind + window frame

roll options

UNDER ROLLED

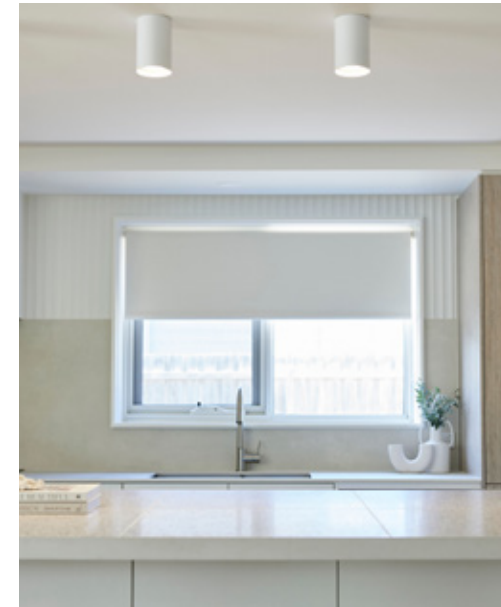

6

OVER ROLLED

blockout roller blinds

- + Blockout of light
- + Room darkening
- + Best for privacy
- + UV Protection
- + Adds insulation
- + Saves on energy bills
- + Ideal for bedrooms
- + Large range of budget + luxury fabrics
- + Durable fabrics ideal for kids + wet areas

7

sunscreen roller blinds

- + Softly filtered light
- + Enjoy your views during the day
- + Gives daytime privacy
- + 80-97% UV Protection + glare reduction
- + Saves on energy bills
- + Fabric is 3-10% open mesh weave

FABRIC SELECTION

Sunscreen fabrics can allow you to see views and maximise the natural light

translucent roller blinds

- + Diffused natural daylight
- + Adds daytime privacy
- + Hides unsightly views

sheer roller blinds

**ADD
SOFTNESS**
Our Sheer range
has more decorative
and textured fabrics
for a softer
look

- + Softly filtered light
- + Clear views
- + Daytime privacy

+ MATCH**
Complete your look
by mixing and
matching fabrics
with your Curtains
and Cushions

bonded roller blinds

- + Select a soft furnishings/Curtain fabric from our extensive fabric range
- + Fabric is bonded to a Blockout Roller Blind
- + Same benefits as a Blockout Roller Blind
- + Create Blinds to reflect your personal style
- + Hundreds of print, stripe, floral + jacquard fabrics to choose from
- + Expand your decorating options + coordinate with Curtains + Cushions

double roller blinds

- + Combine two Blinds on the one window - one for day + one for night
- + Benefits of a Sunscreen or Sheer Blind combined with a Blockout Blind
- + Control of each Blind is separate so enjoy window views + diffused light during the day with privacy + darkness at night
- + Double the insulation benefits
- + Choose from MKI or MKII Double Bracket styles. Double Bracket Covers are supplied for face fit MKII styles for a sleek, clean finish

DESIGN DETAILS

Our revamped double bracket has increased strength and a slimline profile

extreme roller blinds

Our Extreme Roller Blind system is engineered to increase the maximum width of a single Roller Blind without the need to install link brackets, which link smaller Blinds together across large windows or doors. The specialised design guarantees improved fabric performance across the Blinds' wider width.

For Blinds with extreme widths, consider our Extreme Roller Blinds when your window requires a Blind that is approximately 275cm or wider.

These Blinds can be made over one metre in width, allowing you to maintain a consistent, streamlined appearance throughout your home, no matter the size.

CUTTING EDGE DESIGN

The market leader when it comes to reliability, dependability, and strength

sizing

- + Consider when your Blind needs to be approximately 275cm or wider
- + Wider Roller Blinds for a streamlined, seamless finish
- + Increase light control + privacy with less Blinds on one window
- + The Blinds are designed to perform at much wider widths + longer drops than a regular Blind
- + Available in over one metre in width, so multiple Blinds in your home can look consistent
- + Specialised design improves fabric performance

specifications

- + Various hardware colours available
- + Includes bracket covers
- + 60mm Roller Blind tube
- + Control options include chain operated, battery operated motorisation (3Nm), or hard wired motorisation (quiet motor)

select fabric

Ensure the bottom of your Blinds have the right finishes to complete your look. For a contemporary and streamlined look, choose a stitched pocket or bottom rail. If you prefer a classic style, go for our scallop finish with a braid or fringe. Or, you could opt for a pop of pattern with a bonded insert in a drapery fabric.

why our fabrics

- + Australia's largest fabric + colour range
- + Trusted market leading brands
- + Quality Australian Made fabrics
- + Thermal insulation - saving you money on your energy bills
- + We offer Oeko-Tex® Standard 100 Certified fabrics, guaranteeing they're free from harmful substances, safe for contact, and environmentally responsible.
- + Flame retardant fabrics
- + Lead + PVC free fabrics
- + UV + fade resistant fabrics
- + Easy to clean, stain + dust resistant fabrics

dc+b designs fabrics

- + On-trend exclusive Blind + drapery fabrics
- + High Quality - Designed + tested to withstand Australia's harsh climate
- + We buy in bulk - lower prices + minimal waiting time for fabrics
- + Our own ranges mean less hidden costs, passing the cost savings onto you
- + Peace of mind with our three year warranty
- + Oeko-Tex® Standard 100 Certified fabrics available, providing extra peace of mind

- + Reduced user effort for lifting heavy Blinds
- + Smooth + quiet operation
- + Positional bearings to provide constant manual operation
- + Ideal for classic, federation + heritage interior styles
- + Not available for Bonded Roller Blinds

motorised

Designed for modern living, our Automate range with ARC technology lets you control all of your indoor and outdoor window covering motors with a single device.

The Pulse PRO connects to the dc+b control app (iOS + Android) and supports voice commands. Customise daily routines, organise Blinds by room, create scenes, and set timers - all from our free app.

For hands-free control, pair the Pulse PRO with Apple HomeKit, Siri, Amazon Alexa, Google Assistant, IFTTT, or SmartThings.

Our remotes feature tactile push-button controls, 15 or 30 channels, group settings, and sleek wall mounts, with designs tailored to your chosen motor.

Upgrade from manual to motorised effortlessly with our Roller Blind Magnetic Wand Control. This battery-operated motor includes a removable wand that doubles as a USB-C charging point. Easily retrofit with RB08 and RB09 systems.

**AUTOMATION
BROCHURE**
Don't miss our
automation brochure
to see our full range
of motorised
options

- + Child + pet safe
- + Clean, seamless look
- + Easy to operate
- + Control one Blind individually or as a group at one time, from a single remote
- + Operate your Blinds from anywhere
- + Suitable for difficult to reach windows
- + Operate heavy window coverings with ease
- + Large lifting capacity
- + Solar Panel available for battery operated Blinds

Cutting-edge battery technology

Our battery-powered motors are a perfect option for existing households wishing to upgrade to motorised window coverings.

Automate Wire-Free Li-ion Zero motors allow for proficient installation within residential homes and small commercial projects, with no electrical wiring required.

Innovative rechargeable 1.1 and 2.0 motors boast a patented “wire-free” design with built-in lithium-ion batteries which do not require wired power or space for external battery packs. Simply plug the charger into your Blind and into a powerpoint.

The solar panel charger is also available, absorbing sunlight to power your Blinds.

Our market leading Roller Blind battery operated 3.0 motors have the ability to link and lift multiple Roller Blinds simultaneously.

WIRED MOTORS, HARDWIRING ELECTRICITY

Market leading design

For window coverings to suit medium to large windows and large commercial projects, our wired motors are the ideal hard-wired choice. These motors get connected to power, so with a permanent power supply there is no need to re-charge. Molex cables are supplied for your preferred electrician to install prior to our installation.

Our building management system motors are also available, supplied with cables to be integrated and controlled via your chosen building management system.

Connected to power, no need to re-charge

MARKET LEADING

Unlike others in the market we use steel bearings for a sound reduced and smooth operation

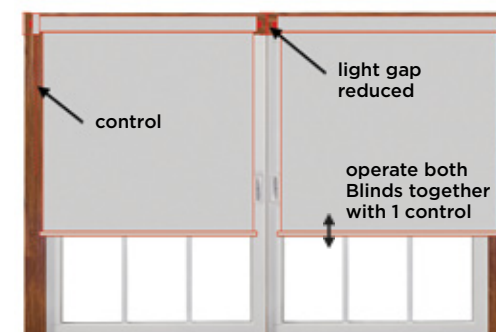

easy-link system

- + Gives you the ability to link up to three Blinds on the one window + operated by a single control
- + Perfect for large or multiple window spaces + open plan living so you can join two or three Blinds together
- + Reduces light gaps between Blinds from approx. 30mm down to approx. 17mm
- + System provides dual control of multiple Blinds for areas such as sliding doors, allowing you to control both Blinds independently
- + Not available for extreme Roller Blinds

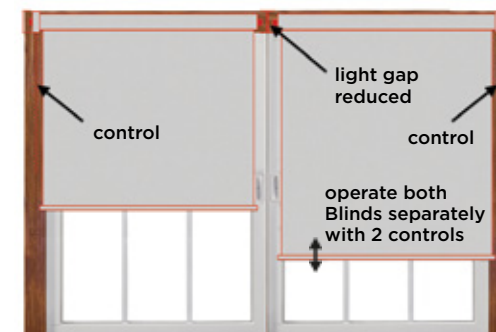

select accessories
