- ALBERT EINSTEIN

The dollar curtains + blinds story began more than 55 years ago. Today we're still a proud family business.

Styles of window coverings come and go, but there's one thing that will never change: our commitment to deliver value in every dollar.

Our business began in 1967 in outer suburban Melbourne, selling Curtain fabric for a dollar by the metre. Since then, we've grown to become one of the country's most trusted names in Curtains, Blinds, Shutters and Awnings, with more than 30 stores nationwide and a growing team of over 350 dedicated people.

Every Curtain, Blind and Awning is handcrafted to order in our manufacturing facilities. The result is our pride in a job well done and window coverings of the highest quality designed to deliver value for years to come.

While we're proud to maintain a strong tradition in manufacturing, we're also known for a range of products that lead the way in style and innovation – with superior materials, manufacturing processes and quality control systems.

Today, we're a familiar brand for generations of families who have trusted **dollar curtains + blinds** to deliver. We still believe in the importance of one-on-one consultations, the quality of local manufacturing, providing the best value without compromising, and the difference that old fashioned service makes to every customer.

We do it all, from a free measure and quote to full installation.

When you visit us at one of our stores, you'll discover that the quality of our service matches the quality of our Curtains, Blinds, Shutters and Awnings. We're here to help you select the right window coverings for your home, and we'll take you through every step from beginning to end.

Australian designed. Australian made. Australian owned.

We're proud to be officially certified Australian made and owned.

It's more than a guarantee of quality. It's a way we can help Australian families and our local manufacturing industry to thrive.

Why do more Australians choose dollar curtains + blinds?

- + Exceptional quality from in-house local manufacturing
- + Australia's largest range of indoor + outdoor window coverings, including product displays + designer fabrics
- + We provide affordable, honest prices from the start - our value in every dollar commitment
- + No shortcuts - everything is custom made
- + Peace of mind with a three-year warranty
- + End-to-end service with no hidden costs
- + Superior materials + technology
- + Free in-store + home consultations with no obligation

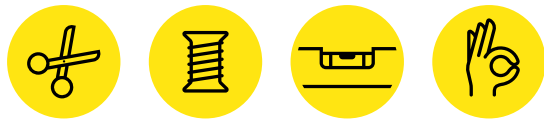

PROUDLY FEATURED IN

‘Great things are done by a series of small things brought together.’

- VINCENT VAN GOGH

dc+b craftsmanship at work

The Master Cutter

Using a sharp eye, The Cutter draws on years of experience to achieve a precision cut, no guide required.

The Seamstress

The highly skilled Seamstress applies years of experience and unique know-how to every Curtain made. Showing expertise in machine and hand sewing to achieve the best possible result.

The Leveller

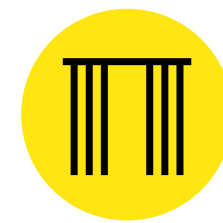

The Leveller does the heavy lifting. Hanging the Curtains to check length and to ensure they hang to the precise standards of dc+b.

The Finisher

With white glove care, The Finisher checks stitches, edges and detail, adds the hooks and ensures it meets dc+b standards.

DESIGN DETAILS

Curtains draw the eye up, making rooms appear much larger than they actually are.

Our products.

Curtains

Whether you're looking for Blockout Curtains for the ultimate in room darkening or light filtering Sheer Curtains, custom made Curtains define the interior design of a room and have an abundance of practical benefits, which allow you to have complete control over your home's environment. Tailor made to fit your windows, they offer visual and practical benefits that make them a wise investment that adds value to your home.

Our Blockout Curtains can preserve up to 20% of the total heat in your home, creating a trapped layer of air between the fabric and the window, which results in an insulating air pocket. Studies also demonstrate that Curtains made from Blockout fabric can reduce heat gains in the summer months by up to 33 per cent.

Select from our Curtains+ complimentary making range and there will be no making costs added to your full-length Curtains. Borrow a sample of your fabric choice and try it at home. We offer full Curtain lengths so you can take them home and hang them up!

Tracking completes the look of your Curtains and our made to measure tracks allow us to fit to any size and shape window. We can mount tracks onto ceilings, arcs or walls, allowing great flexibility.

Length

What length should I choose? It's very much a personal choice but for light control, privacy and insulation reasons, not to mention aesthetic appeal, we always recommend full length Curtains where possible. We can design to any length but our three standard length options are Float, Kiss and Puddle.

CURTAINS+

- + Full-length Curtain samples to take home
- + Complementary making
- + Quality fabric brands
- + Market leader pricing

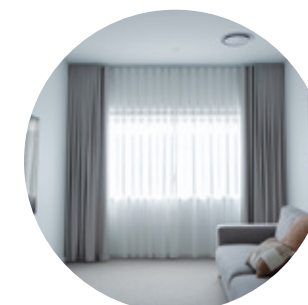

BLOCKOUT CURTAINS

- + Excellent for blocking out light
- + Complete night-time privacy
- + Best product for thermal + sound insulation
- + Savings on energy bills
- + Superior for UV protection

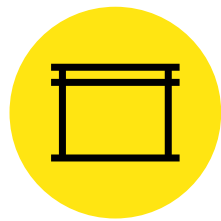

SHEER CURTAINS

- + Soft diffused natural light
- + Adds daytime privacy
- + Daytime sun protection
- + Adds softness to a room
- + Layer with Blockout Curtains for night-time privacy

DOUBLE CURTAINS

- + Blockout + Sheer Curtain combined
- + One for day + one for night
- + Control of each Curtain is separate
- + All the practical + visual benefits of both Blockout + Sheer Curtains
- + Layered Curtains for a beautiful finish

Blinds

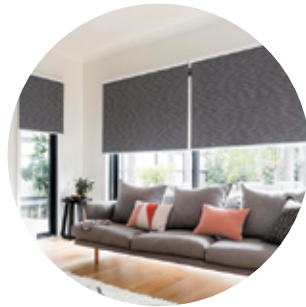

The beauty of our Blinds is their ability to control light, block out heat and glare and disappear when required without making their presence obvious. Whatever the size, shape or style of your window, we have a Blind treatment to match in a multitude of styles and countless fabric colours, textures and transparencies.

The difference in our Blinds is in the detail and that's important given the major investment entailed in choosing your window coverings. Perfected by years of extensive research and development, our technically superior hardware systems have been designed for precision operation.

Our Blinds are also designed with extra componentry as standard, at no extra cost, to ensure the most durable and long lasting Blind available.

TOP OF THE LINE

The highest quality hardware available, tried + tested for 55+ years.

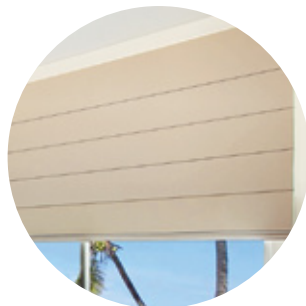

ROLLER BLINDS

- + Blockout, Sunscreen or Sheer fabrics
- + Affordable
- + Easy to use
- + Slimline fit to maximise views
- + Low maintenance

- + Create blinds to reflect your personal style
- + Hundreds of print, stripe, floral + jacquard fabrics to choose from
- + Expand your decorating options + coordinate with curtains + cushions

NO SHORT CUTS

Our Shutters are custom designed + manufactured to fit your window + door dimensions.

Shutters

Transform your home with our stylish, versatile and affordable Shutters offering you complete flexibility with light control, privacy and insulation. Our Shutters are a window treatment that will increase the value of your home.

Shutters are an ideal choice for thermal insulation – open the blades to stream light into rooms and close to insulate, offering you a more energy efficient home all year round. However let's not forgot about how they can also transform the façade of your home. Installing Shutters across your home's front windows can make a huge impact to your home's curb appeal, not to mention the added sound insulation from outside road and traffic noise.

Our Shutters are the most premium design on the market ensuring a more durable longer lasting Shutter for your home. This includes an elliptical shape blade design, which increases the blade closure for added privacy and light control. Our PVC Shutters are also made with an aluminium core, which strengthens the blades and panels, adding extra support to reduce bowing or warping.

PVC SHUTTERS

- + UV, water + moisture resistant
- + Ideal for bathrooms, laundries + kitchens
- + Thermal + sound insulation
- + Savings on energy bills
- + Child + pet safe

TIMBER SHUTTERS

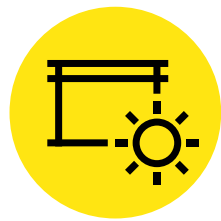

- + 100% solid timber
- + Timeless beauty of real timber
- + Thermal + sound insulation
- + Savings on energy bills
- + Child + pet safe

ALUMINIUM SHUTTERS

- + Suitable for indoor + outdoor
- + Ideal for patios, balconies, verandahs + windows
- + Control privacy, light + views
- + Increase security with locking systems
- + Protection from heat, wind + rain
- + Create an enclosed outdoor living area

Outdoor

Whether you're looking for an Awning to provide shade and increase your home's insulation, or to create an all inclusive outdoor room to enjoy all year round, we have the outdoor product to suit – all custom made to fit your external shading requirements.

Window Awnings offer protection for the inside of your home from sun damage and our Awning fabrics can block and reflect up to 95% of solar energy before it reaches your windows, resulting in keeping your house cool and greatly improving your home's energy efficiency.

Our Alfresco Awnings are designed to seamlessly extend your indoor living outdoors. Our Zipscreen Awnings feature hidden z-Lock technology for a secure streamlined finish, and an Ultra-Lock system that automatically secures your Blind in place with a single action. Custom made up to 5.5 metres wide, they're built to suit almost any outdoor area. Backed by nearly four decades of research and development, each component has been rigorously cycle-tested 10,000 times and proven to withstand wind speeds up to 140km/h, ensuring long-lasting performance you can rely on.

Operating your outdoor window coverings has never been easier, instantly open or close your Awnings whether you're home or away with our Automation range.

WINDOW AWNINGS

- + Automatic, fixed guide or straight drop style
- + Reflects heat
- + Glare reduction
- + Keeps interiors cool
- + Savings on energy bills
- + UV protection

ALFRESCO AWNINGS

- + Zipscreen, wire guide, straight drop or pivot arm
- + Ideal for patios, balconies, verandahs + pool areas
- + Control privacy, light + views
- + Protection from heat, wind + rain
- + Create an enclosed outdoor living area

ROLLER SHUTTERS

- + Increase security + privacy
- + Thermal + sound insulation
- + Savings on energy bills
- + Bushfire protection
- + Easily installed solar powered motorisation
- + Available in selected stores*

FOLDING ARM AWNINGS

- + Custom made to fit any space
- + No obstruction posts underneath
- + Reflects heat + keeps interiors cool
- + Extends living spaces easily
- + Available in selected stores*

Awning fabrics.

Accessories

Don't forget to add the finishing touches to your window coverings with our accessories for a complete home interior look.

A perfect addition over your Curtains or Blinds, our custom made Pelmets frame your windows for a neat streamlined finish and add further insulation by trapping air between the Curtains or Blinds and windows.

Add our cassettes and side channels to your Roller Blinds to minimise light penetration, increase insulation and privacy, along with concealing hardware for a clean, stylish finish.

For a softer look we also have **Valances** and the more traditional **Swags + Tails**.

PELMETS

- + Curtain or Blind fabrics
- + Increase insulation
- + Savings on energy bills
- + Increase light control
- + Conceal hardware underneath

CASSETTES + SIDE CHANNELS

- + Add to Roller Blinds
- + Increase light control
- + Improve privacy
- + Increase insulation
- + Conceal hardware underneath

CUSHIONS + TIEBACKS

- + Curtain fabrics
- + Coordinate with Curtains, Roman Blinds + Bonded Blinds
- + Custom shapes + sizes
- + Custom window seat cushions

CORNER WINDOW?

No problem! Our angled Pelmets are custom designed for corner or bay windows.

Automation

Our Automation range is the ultimate choice for modern day living and it's now more convenient than ever. Choose from cutting-edge battery technology with the addition of solar powered panels or sensors, or our market leading hard wired motors with no need to re-charge.

Our innovative Automate range can operate all of your home's indoor and outdoor window covering motors with the one device using ARC technology.

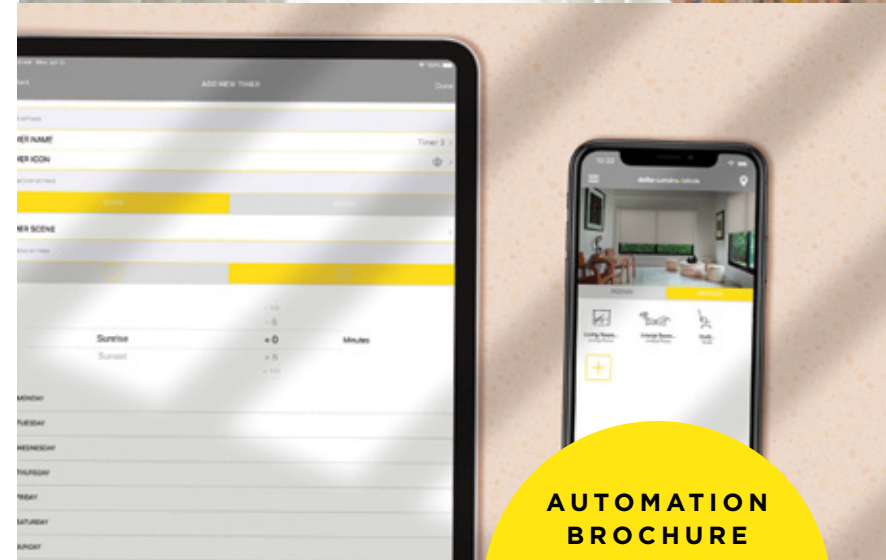

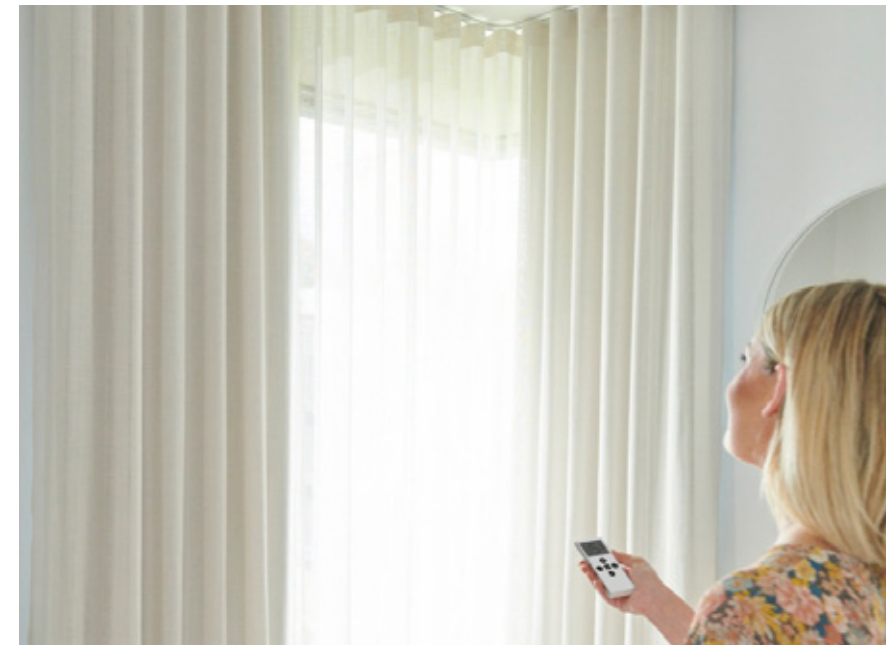

Our Pulse PRO allows you to accurately control your window coverings via our 'dc+b control' app on your iOS or Android smartphone or tablet, or via voice control. Using our complimentary app, personalise the daily routine of your window coverings; organising by room, grouping by scenes and automating with timers.

For voice control, set up our Pulse PRO with your preferred smart devices to easily control your window coverings with simple voice commands. Unlock the convenience of smart shade operation.

Our remotes feature tactile push button controls, 15 channels, group controls and slimline wall mounts. Remote designs vary depending on the motor chosen.

AUTOMATION

- + Indoor + outdoor window coverings
- + Ultimate choice for child + pet safety
- + Clean, modern look with no cords
- + Control one window covering individually or as a group at one time, from a single remote
- + Battery operated or wired motors
- + Suitable for difficult to reach windows
- + Operate heavy window coverings with ease

AUTOMATION BROCHURE

Don't miss our Automation brochure to see our full range of motorised options.

Real stories.

You're in good company. We measure the success of **dollar curtains + blinds** by the difference we make to Australian homes every day.

Not many businesses can say they've lasted for more than 55 years, so what's been the secret of our success? Simply put, we go above and beyond to help our customers. We listen, we learn about the space, we consider all the options – from textures and technology to colours and budgets – then we tailor a solution to suit.

Whether realising a dream for a brand-new home or bringing life back to a house through renovation – we've worked with people to create the perfect window coverings, inside and out.

There are so many houses we have helped make a home. These are just a few of our customer experiences. **Our real stories.**

"I wanted to elongate the room and add softness. Our Curtains in Driftwood work so well in our sitting room. Just stoke the fire!"

- STELLA

"We love our glass doors, they're wonderful for light, but the S-track Sheers really work to soften the whole room."

- THE WATSONS

“We knew we needed something fabulous and classic to break up the grey and the black and white stripe Awnings added the perfect finish to the front of the house. Instant street appeal.”

- THE EDLINS

“The Awnings are so easy to use and give us the chance to use the outdoors as a real room.”

- MAGGIE + JACK

“We wanted to soften the salon, add a sense of calm, and these Pearl Sheers on S-tracks do this so well.”

- GABBIE

“The addition of my favourite dollar curtains + blinds Sheer Curtain was a subtle yet easy way to re-imagine my living area, while bolstering the existing luxury feel of a high-end build.”

- MICHAEL

“I wanted to have something wonderful. When I saw the floral fabric range, I knew I wanted a garden print. I love living amongst daisies, magnolias and flannel flowers!”

- JESS

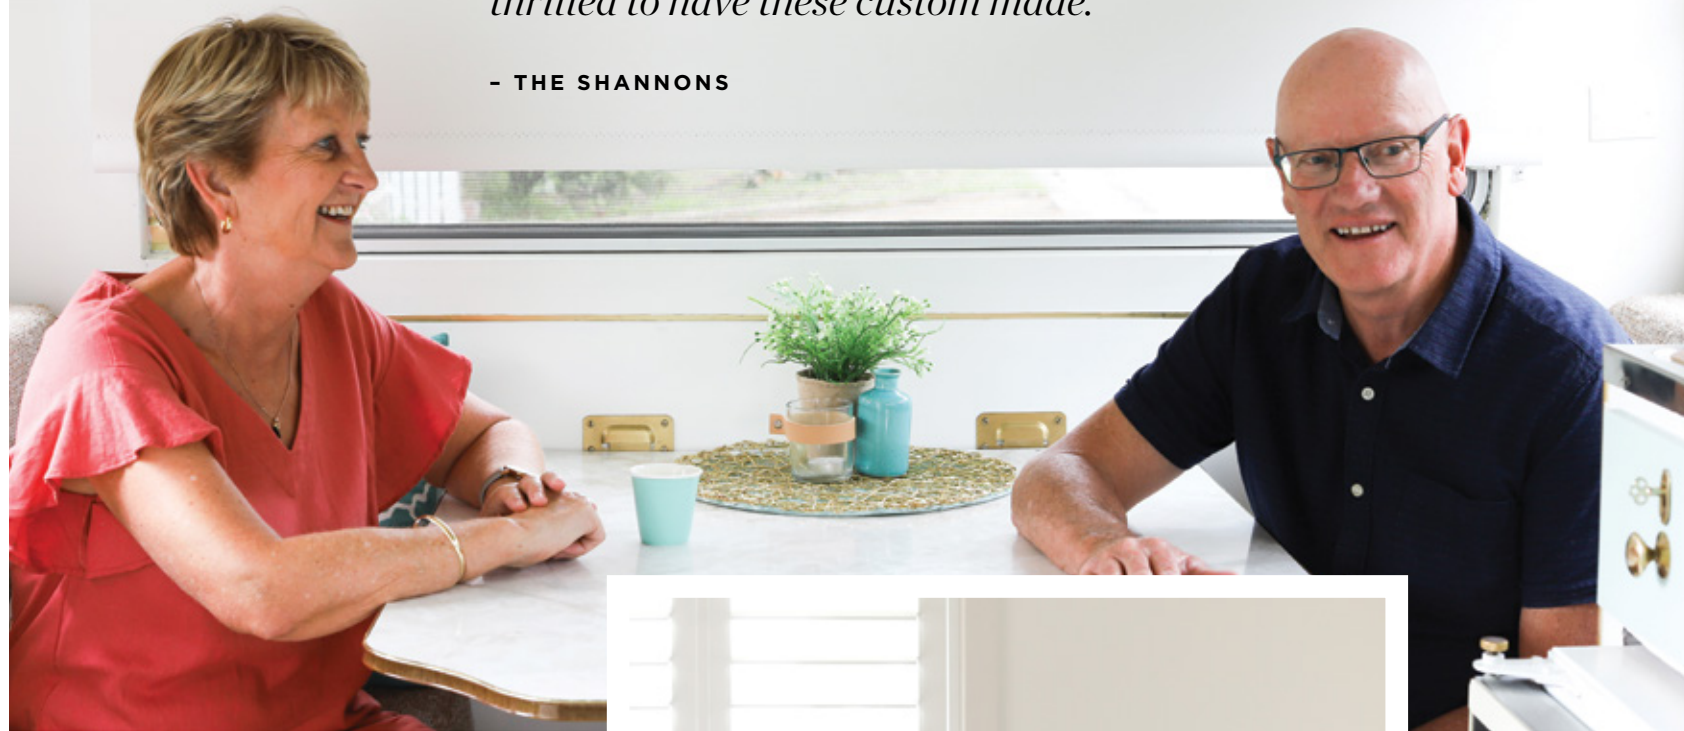

“My living room is literally on clouds! Wave Fold Drapes in Cloud make our living room heavenly.”

- TULAY

“We wanted something simple that didn’t take away from the view. For such a little caravan, she has these beautiful big windows, we were thrilled to have these custom made.”

- THE SHANNONS

“My Curtains and Shutters from dollar curtains + blinds have literally changed my life! I had a very big health scare and decided that I wanted to live in beautiful surroundings.”

- BONITA

“Light control for a busy family is important. Lighter and brighter was our aim, so we have done Plantation Shutters on all windows throughout the house.”

- KIRSTEN + HER MOTHER, JENNY

“These Blinds certainly make life easy. We run off solar so being battery operated, we are charging batteries during the day.”

- THE COX'S

SHAPED SHUTTERS

We custom design + fit our Shutters to most window shapes including triangles, arches + circles.

“It was so wonderful to be able to have exactly what we wanted, made just for us.”

- VICTORIA

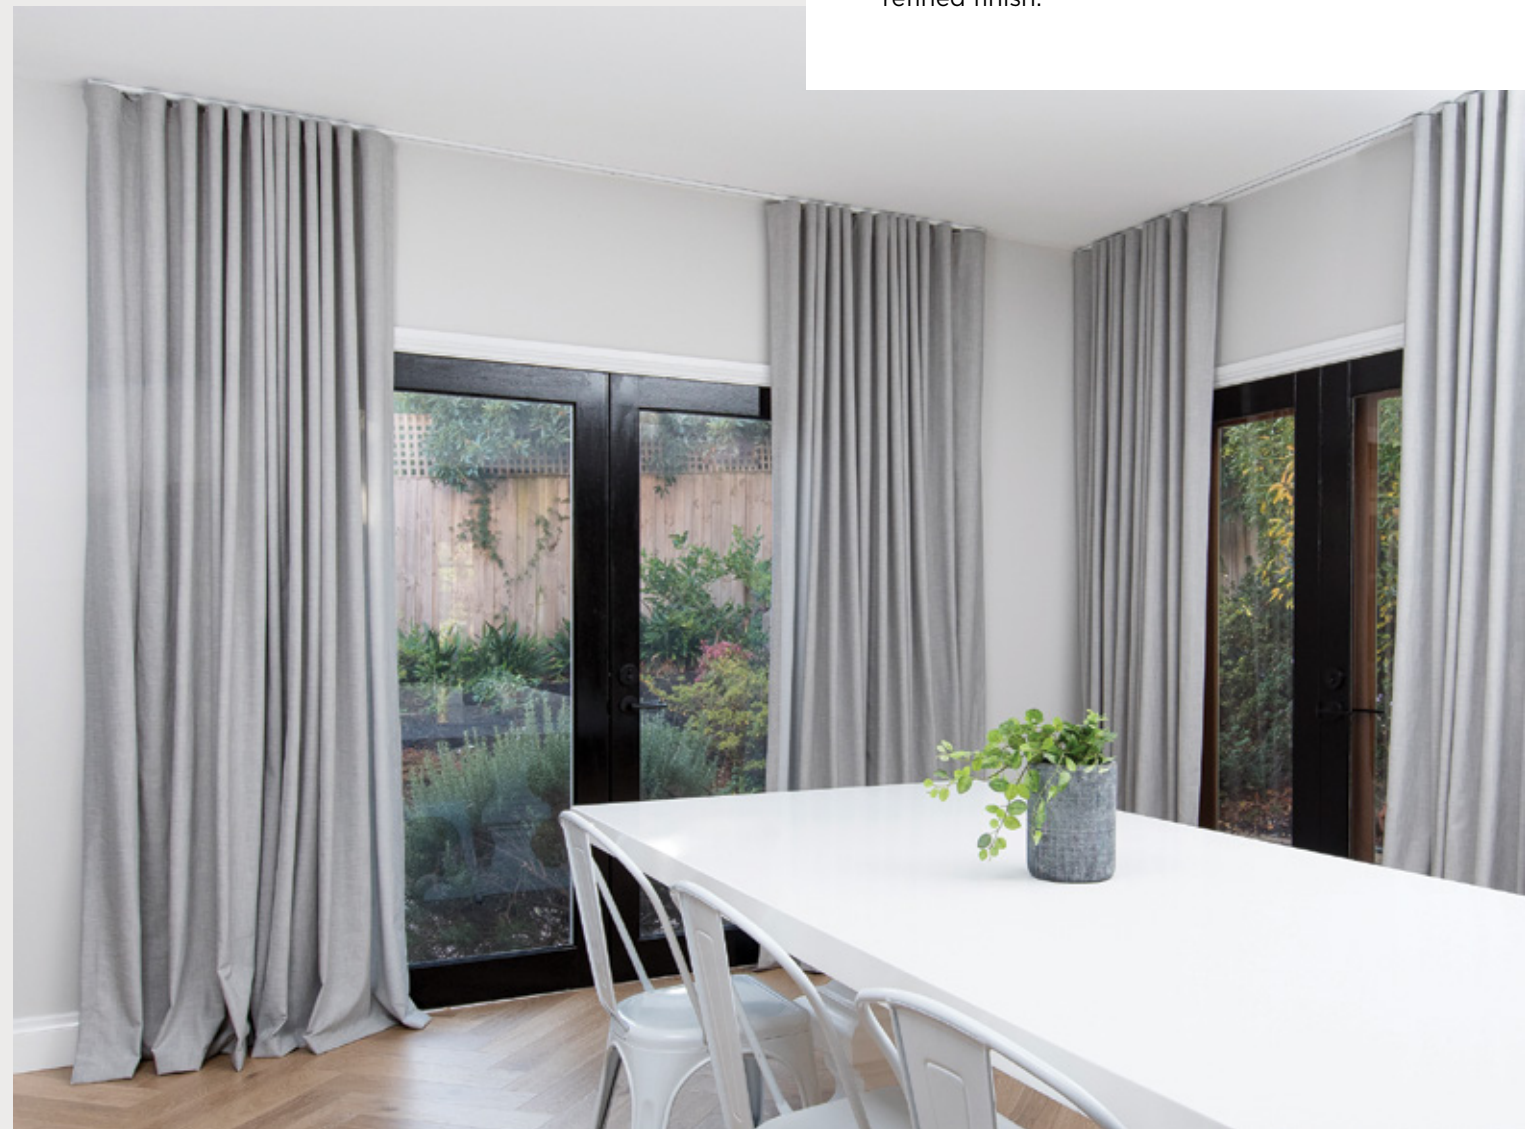

Featured homes.

Refined luxe.

This contemporary look takes Curtains to a luxurious new level with endless glamour throughout the newly renovated inner city abode. Wavefold Curtains drape from the ceiling to the floor, enlarging the open living space with Blockout lining layered behind in the bedrooms, ensuring complete light and privacy control. Shutters throughout the bay windows and wet rooms were all custom made for a perfect fit and work back with the home's interiors for a truly refined finish.

Our new generation PVC Shutters have the added benefits of being UV, water and moisture resistant, helping to withstand fading, cracking or warping. Because the Shutters are not affected by moisture or humidity, it makes them the ideal choice for kitchens, bathrooms and laundries.

WET AREAS

Shutters are perfect for wet areas because they are not affected by moisture + humidity.

Waltzing matilda.

This contemporary look takes Curtains to a luxurious new level with endless glamour throughout the newly renovated inner city abode. Wave Fold Curtains drape from the ceiling to the floor, enlarging the open living space with Blockout lining layered behind in the bedrooms, ensuring complete light and privacy control. Shutters throughout the bay windows and wet rooms were all custom made for a perfect fit and work back with the home's interiors for a truly refined finish.

CONTROL THE LIGHT

For a practical yet subtle option, layer Roller Blinds behind your Sheer Curtains for light control.

THE PERFECT LENGTH

You can choose to have your Curtains floating, kissing or puddling on the floor.

“The motorised Blinds have been a game changer. To wake up, and be able to press a button and have natural light stream in, feels like such a treat, and in this case, an affordable and accessible one. It’s a luxury resort feature in our own home”.

- RACHAEL, ROSEBUD.

Timeless elegance.

This country retreat has been revived in stunning fashion with hints of old world charm creating the perfect space for guests to unwind and refresh. Roman Blinds combine the simplicity of Blinds with the warmth and versatility of luxurious soft furnishing fabrics. Warm and earthy colours are carried throughout with the notable addition of Cellular Blinds combining style, versatility and functionality.

**TOP DOWN
BOTTOM UP**
Adjust your Cellular Blind from both the top down + the bottom up for endless design options.

The Cellular Blinds provide child safety features, with a cordless lifting system that operates with ease. The Blinds are also superior in energy efficiency, providing a unique honeycomb construction that can result in savings of up to 32% on heating and cooling costs.

Classic contemporary.

Set on the rolling green hills of the Victorian countryside, often the most beautiful homes have a tale to tell and this one is brimming with history. A design classic, the fine pleated folds of Pinch Pleat Curtains were a wise investment to frame the heritage windows and further emphasize the home's high ceilings by drawing the eye up and making the rooms appear larger. The woven fabric and adjoined thermal lining helps to provide much needed insulation and light control.

PINCH PLEAT CURTAINS
The Pinch Pleat Curtain heading is a timeless classic that has been around for decades. Using more fabric creates a 'fuller' Curtain finish.

Country hamptons.

Located on the outskirts of Mt Gambier in South Australia, window coverings play a key role in pulling this property's Hamptons look together. Pure white timber basswood Plantation Shutters were chosen for their timeless yet practical good looks. Double Pleat Blockout Curtains add softness to the living spaces along with thermal and noise insulation.

Luxe retreat.

Interior designer Katie Sargent perfected the interiors for these luxurious holiday homes in Victoria's picture-perfect Alpine High Country. A carefully considered collection of Blockout soft Roman Blinds, Pinch Pleat Blockout Curtains with contrast black designer tracking and Sheer Roller Blinds have been used in different combinations, depending on a particular room's light and privacy requirements. With such cosy, warm and inviting spaces, the only problem these holiday houses will have is getting their guests to leave.

Design symphony.

Adding yet another stunning project notch to their already impressive design belt, David Cook-Doulton and Martin Shew transformed an old bank into a luxury hotel. Built in 1864, the building once housed Bendigo's oldest bank turned boutique hotel in David and Martin's signature style.

Featuring dramatic Australian artworks in all 10 guest suites, the hotel is the epitome of chic, with window coverings playing a big part in achieving the level of luxury the pair were chasing.

The rooms include Wave Fold Blockout Curtains giving guests superior light control, privacy, thermal and noise insulation – a luxury one comes to expect from any project by David and Martin. These are paired with Wave Fold Sheer Curtains to give the rooms an elevated and effortlessly elegant look.

For rooms with more difficult windows where Curtains weren't suitable, David chose Double Roller Blinds. Combining a Blockout Roller Blind and Sunscreen Roller Blind offers the flexibility of complete darkness and privacy, or using the Sunscreen Roller Blind only offers daytime privacy, sun protection and views to outside.

It was important the window coverings gave guests comfort and privacy without compromising on style. To fit the opulent, dramatic aesthetic, David selected Curtain fabrics with a pearlescent effect that complemented the wall colour and statement artworks.

The Bendigo Ernest Hotel is a sleek and sophisticated hotel which pays tribute to its historical past.

Scandi style.

This spacious new build in Melbourne's west is full of light and bright Scandi-inspired interiors. Taking centre stage in the airy living and dining spaces are sets of Sheer Curtains on contrast black tracking which complement the rest of the black accents in the home. Plantation Shutters form a stunning contrast to the black feature wall and blockout the sun when needed on the west side of the house.

Contemporary opulence.

The Blockout Curtains – which offer superior light control, privacy and thermal and noise insulation – were designed to puddle on the floor for an opulent look in keeping with the house's luxurious interior.

“My favourite aspect of the Curtains is the way they have additional length which creates greater volume and softens some of the harder edges of the structural interiors. As a luxury accommodation retreat, I felt that the additional volume of the puddle Curtains added to the drama and opulence of the interior.”

– DAVID

Rural glamour.

This architect-designed home in Flora Hill - dubbed the treehouse - needed window coverings that complimented the size of the windows. Floor to ceiling Sheers soften the modern design of the home, layered with Blockout Roller Blinds. Expansive windows in the bedrooms are dressed with the same Sheers but paired with separate Blockout Curtains which are set behind the Sheers for added insulation and light control. Plantation Shutters also make a statement feature in the walk in robes.

“The wall to wall coverage of the Sheers takes everyone’s breath away. They add another layer of texture which makes the spaces warm and homely.”

- CARMEL, FLORA HILL.

Urban abode.

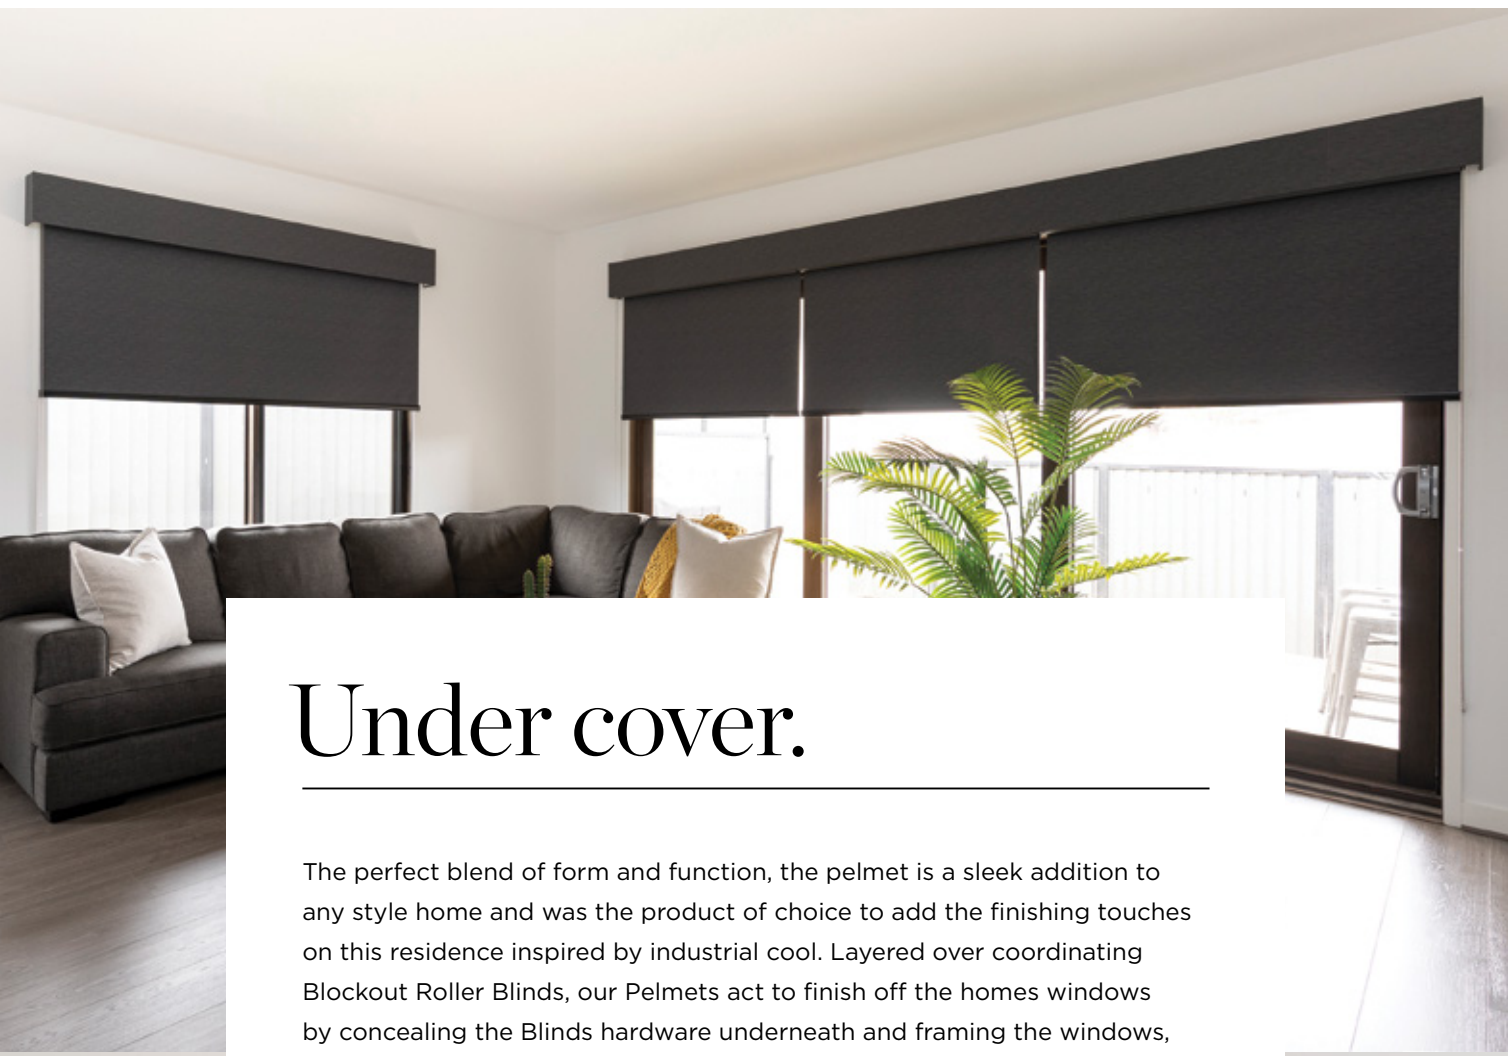

Contemporary cool resonates from the interiors of this inviting family home. Setting the scene are beautifully pleated soft folds of fabric in Pinch Pleat Sheer Curtains, lending a luxurious feel and layered over a backdrop of sleek Blockout Roller Blinds, providing all the practical benefits that allow the clients to have complete control over the home's environment.

Make mine a double.

Double Curtains, combining Blockout and Sheer Curtains together on the one window, create a well-designed and practical finish for this contemporary renovation. Control of each Curtain is separate – open the heavier Curtains during the day and keep the Sheer Curtains closed, for diffused light and daytime privacy. Close the Blockout Curtains at night for maximum darkness, privacy, thermal and noise insulation.

Under cover.

The perfect blend of form and function, the pelmet is a sleek addition to any style home and was the product of choice to add the finishing touches on this residence inspired by industrial cool. Layered over coordinating Blockout Roller Blinds, our Pelmet's act to finish off the homes windows by concealing the Blinds hardware underneath and framing the windows, for a refined finish. Light control is further improved, along with insulation, as the Pelmet's trap air behind the Blinds and windows.

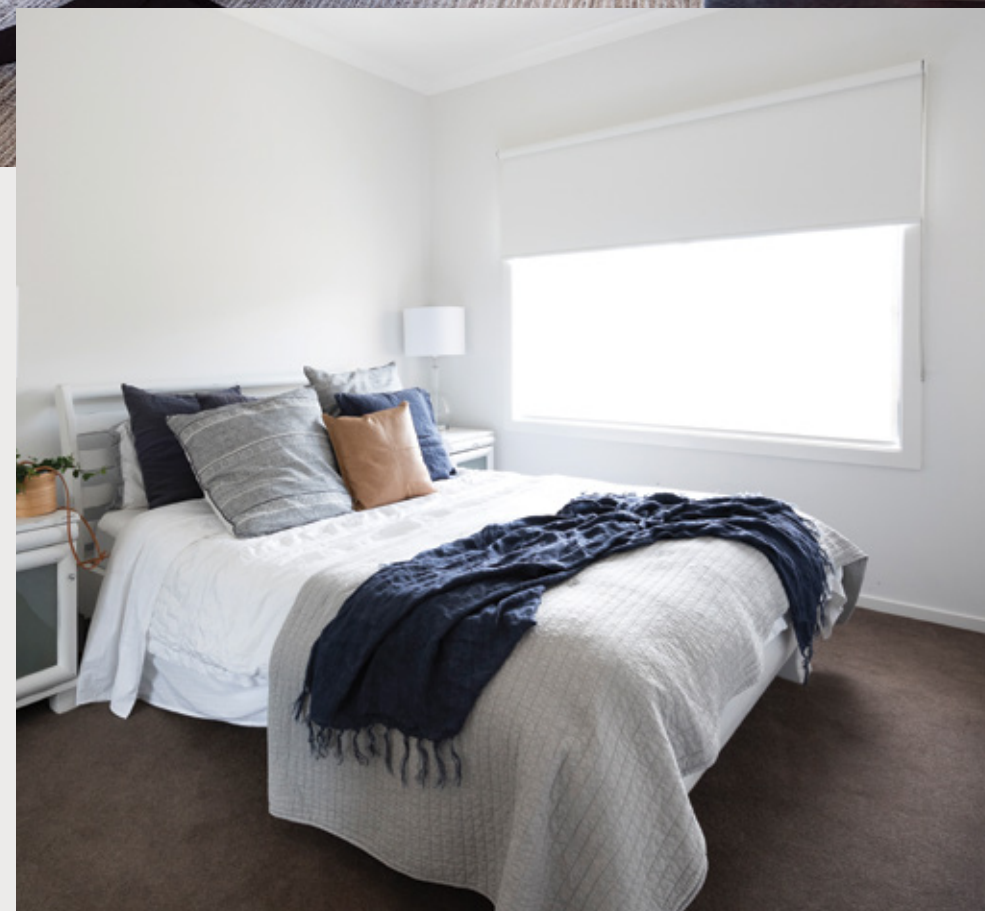

Provincial style.

Infused with contemporary style, custom made Shutters create the ultimate refined look for this modern Canberra home. With the windows facing northwest, the Shutters protect the home from the harsh sunlight with their insulation benefits and added UV protection. Soft Pinch Pleat Sheer Curtains teamed with sleek black tracking add the finishing touches, creating a series of calming and inviting spaces.

Resort living.

Inspired by beachside hotels, open plan living is celebrated in this new build with Sheer Curtains and Sunscreen Roller Blinds, softly filtering light and creating a luxurious resort style ambience.

Adding texture is important in the success of a home's window coverings and is applied here in the form of finely woven Curtain and Blind fabrics. The Sheer Curtains allow for soft breezes into the living space whilst the Sunscreen Roller Blinds face the coastal sun, providing much needed glare reduction and heat control, along with 80-97% UV protection.

The clean lines of Roller Blinds perfectly complement the home's modern architecture and interior design, allowing for maximum shading with minimum window obtrusion when drawn open. Double Roller Blinds add complete functionality by combining two Blinds on each window – one for the day and one for the night – for a sleek yet no fuss finish.

BAY WINDOWS

Curtains are a great option for bay windows. We bend our tracks to match the exact angles for the perfect designer finish.

Curating a colour palette of earthy tones was key in creating a cool and calm backdrop in the interior design scheme and for a grounded feel throughout the home. This is a look that will never go out of style.

dc+b's window covering design has fulfilled the brief of delivering a home that can be a private sanctuary for the clients and their family for many years to come.

Entertainers' paradise.

This ideal entertaining area features a full-sized outdoor kitchen, relaxed seating area with TV, and outdoor dining space. It's everything you could want to enjoy outdoor living in Australia. So naturally, homeowner Danielle looked for clever ways to make it as comfortable as possible for year-round entertaining.

As well as ceiling fans to increase airflow, she installed our ever-popular automated Outdoor Zipscreen Awnings. These open and close with the touch of a button from a remote control or our 'dc+b control' mobile app. You can also use set and forget features like scenes and timers.

The fabric of Zipscreen Awnings is perfect for keeping insects out and protecting you from the elements, while still allowing breezes to flow through and a view to outside — and who would want to obstruct this beautiful green outlook of gumtrees and natural wildlife. However, in urban environments, the daytime privacy our Zipscreen Awnings offer is another benefit.

“Our outdoor entertaining space now feels like an extension of the home.”

- DANIELLE

Bayside jewel.

Outdoor Shutters deliver privacy from neighboring homes, provide shade from the sun and added protection from the wind and rain across this home's expansive deck. Built to last, the Aluminium Shutters are designed for bushfire zones and backyard barbies. These Shutters won't rot, warp or splinter, so were a must in this outdoor space which is now the perfect entertainers' delight. With matching 89mm blades, Timber Shutters continue the coastal feel inside, with the inclusion of a French door cut out and beautiful Bi-fold Shutters at the servery.

Alfresco appeal.

The design of this impressive alfresco area delivers everything you could ever wish for in outdoor living and entertainment. The addition of a Motorised Awning not only keeps the outdoor room cool by controlling the sun's rays, but it also helps to blockout the wind. Opting to match the Awning's hardware to the home's exterior COLORBOND® colour palette ensures cohesion throughout the home's exterior.

TOTAL CONTROL

The side retention system Awning fully encloses the space with no gaps for dust or dirt to enter.

Making room.

Don't succumb to Australia's harsh climate, embrace it with dc+b's new generation, Motorised Alfresco Awnings. Modern breathable mesh allows for both airflow and privacy. The Awning's contemporary darker tone ensures the clients keep their views and cool breezes through summer, whilst still gaining privacy and most importantly, much needed shelter from sun, wind and rain, all with the touch of a button.

Keep it cool.

Keeping out the sun and heat was the design brief for this home's windows. Easy to use Automatic Window Awnings ticked all the boxes, reducing sunlight and glare on the windows and offering sun and UV protection, reducing the indoor temperatures of the home along with helping the clients to reduce their cooling costs. The slanted design allows for fresh air and breezes through summer and the Awnings are simply retracted in winter, letting the sun in to help to warm the house.

CLIMATE CONTROL

The window Awnings block + reflect solar energy before it reaches the windows.

At home with...

The icing on the cake with *Janelle Dedini*

The contemporary, coastal home of Janelle Dedini, founder of Cake Ink, envelops you from the moment you step inside. It's the cohesive soft colour palette of her favourite colour – dusty pink – paired with neutral greys and warming wood tones that creates an instant sense of calm.

Adding to this softness are the Sheer Curtains she used throughout which finish off the spaces beautifully — the icing on the cake, if you will! Using Pinch Pleat Sheer Curtains and Blockout Curtains gave Janelle the look she was dreaming of.

“The Sheer Curtains created a beautiful and soft effect by filtering and dispersing natural light throughout every room. It evokes a warm and inviting space for our family to enjoy.”

– JANELLE

In the living room, the Pinch Pleat Sheer Curtains give the space privacy while still allowing plenty of natural light to flood the room. While in her daughter's room, they add a level of softness to the space, tying in perfectly to the home's muted and dreamy colour palette.

Sheer perfection with *Lana Wilkinson*

Fashion designer and celebrity stylist Lana Wilkinson knows style. Her life is a busy, glamorous mix of fashion and celebrities, so she wanted her home to be a place of warm, liveable luxury.

Having recently renovated the downstairs of their 2-storey family home, Lana added comfort and that final layer of style using a range of window covering solutions from our extensive range.

Blockout Roller Blinds tuck in behind Wave Fold Sheer Curtains to strike the perfect balance of functionality and aesthetics. These offer privacy and total darkness when required, and the Sheers add beautiful, dappled light throughout the day.

In the bedrooms, living room and Lana's ever-so-impressive dressing room, she selected a grey fabric for warmth and elevated luxury. While in the pool house (every home owner's dream!) she opted for crisp white Sheer Curtain fabric for that airy feel and abundant natural light.

"I love natural light so I prefer Sheers because you can easily bring warmth into your personal space."

- LANA

A vibrant retreat with *Suzi Appel*

Photographer Suzi Appel takes us inside her creative Melbourne home full of well-loved treasures. Blockout Curtains in the living area add much needed thermal and noise insulation, whilst Plantation Shutters were the perfect fit for the office/retreat. Double Curtains - Sheer Curtains with separate Blockout lining behind - in a rich navy tone add a stunning backdrop to the master bedroom.

Boho Chic with *Sarah Pickersgill-Brown*

Interior stylist Sarah Pickersgill-Brown's family home is a light-filled sanctuary that has captured the attention of thousands on Instagram. It's all about the light with Sheer Roller Blinds layered under Blockout Roller Blinds in the living spaces, meanwhile textured Sheer Curtains make a feature throughout the bedrooms.

"The Awnings gave it more of a modern feel. We get so many compliments on them. I am so glad I trusted my gut and went with the black and white stripe."

- ANNA

All the stripes with *Anna Egbert*

In a quiet beachy suburb of Geelong, Victoria, artist and graphic designer Anna Egbert has beautifully restored her family's 1960's weatherboard home with striking black and white stripe Window Awnings. The Awnings completely transform the facade, whilst keeping the harsh Australian heat at bay.

Behind the build.

Contemporary barn.

ANDRIJANA + BLAKE HENRY

After feeling the need for a complete sea change — or in this case, a tree change — Andrijana and her husband Blake moved their family to Woodend. A small, semi-rural town where life is slower and nature is at your doorstep.

A lover of pared back, timeless design, Andrijana had a vision on mind when it came to building their dream family home. With soaring 8.5m high ceilings, the concept behind this new build was contemporary barn meets Scandinavian styling.

No strangers to a build or renovation project, this home was Andrijana and Blake's fifth project. It brings together all their knowledge and learnings from previous builds. Perched on half an acre, this striking home is nestled in rural beauty. So naturally, the pair wanted to embrace their surrounds and create a strong indoor-outdoor connection. They did this through plenty of glass and architectural-style windows, allowing views of nature around every corner.

Long-time customers of **dollar curtains + blinds**, Andrijana knew just where to turn for their (many!) window covering requirements. Yet even as a seasoned renovator, she still found the expert help of our friendly team beneficial.

“We knew roughly what we were after in terms of product but having the team on site were able to really see the concepts and having the knowledge of what worked best for colour schemes and designs in real life. Having every product on hand, every option seeing it on our windows was exceptional.”

- ANDRIJANA

Andrijana chose Blockout Roller Blinds and Wave Fold Sheer Curtains in the bedrooms. This combination window covering solution is incredibly popular as it achieves complete Blockout and privacy when the Roller Blind is closed, while when open, the Sheer Curtain provides daytime privacy and diffused natural light.

She continued Sheer Wave Fold Curtains through to her main living space. It's the perfect choice where they didn't want to obscure views to outside, but required a little protection from the harsh afternoon sun.

“The team were able to source the perfect fabric selection to my brief. The whole process was easy, friendly and professional.”

- EMILY

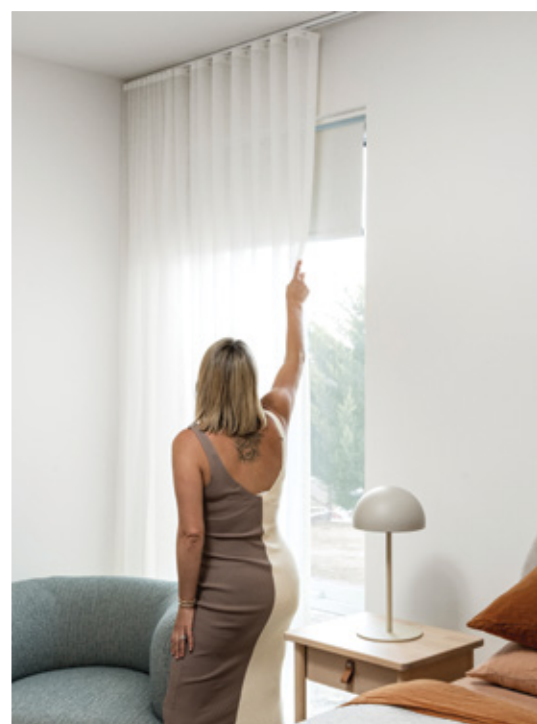

Sweet nectar.

EMILY JURY + BEC DOUROS

Earthy modern minimalist is how we'd describe this new build by design powerhouse Nectar studio. Home of Interior Stylist and Designer at Nectar, Emily Jury, with the help of Nectar founder, Bec Douros, the pair created something undoubtedly special.

In the open plan living, dining and kitchen area, expansive timber framed windows perfectly frame the view beyond — creating the sense of living artwork. Without wanting to obstruct these views, they dressed the window in a puddle length Sheer Wave Fold Curtain with recessed Curtain track. It brings a tactile element of softness to balance the stone, steel and other hard materials in this space.

In their master bedroom, Emily selected Double Curtains on a curved track. Featuring a Blockout Wave Fold Curtain in front and Sheer Knife Pleat Curtain that kisses the floor for a relaxed yet elegant look.

For the study and additional bedrooms, Emily chose Blockout Roller Blinds for an uninterrupted night's sleep, privacy and minimalist aesthetic. These windows are dressed with Wave Fold Sheer Curtains that kiss the floor to again allow comfortable light and views to pass through.

Modern masterpiece.

NATALIE + MARK PAPPALARDO

When owner builders Natalie and Mark Pappalardo decided to build their dream family home, they knew exactly what they wanted.

One of the most impressive areas of their home is their dining space with huge void. Stunning Wave Fold floor to ceiling Sheer Curtains dress the sky-high windows — it's the epitome of luxury. As well as elevating the look of the dining space, these Sheer Curtains offer many advantages including sun protection, glare reduction, daytime privacy, thermal benefits, and beautifully diffused natural light.

Natalie and Mark engaged the **dollar curtains + blinds** team at the very early framing stage of their build to incorporate Curtain Boxes into the ceilings. These hide the Curtain tracks and create a designer finish.

“Our objective through adding Sheers was to create softness without compromising natural light.”

- NATALIE

Natalie and Mark show how you can mix and match your window coverings and still create a seamless and cohesive look by carrying a similar colour palette throughout.

In the bedrooms, they chose Blockout Roller Blinds for their slimline fit, ease of use, and affordability. Our range of Blinds use the highest quality hardware, tried and tested for over 55 years. Over these, they added Sheer Wave Fold Curtains for the option of daytime privacy and to achieve a luxurious aesthetic.

GRAND HEIGHTS

Our Sheer fabrics can be made for high ceilings + large void areas which definitely create an impact.

Calming oasis.

CAITLYN MAY

Teacher, Caitlyn May, invited us inside her dreamy, warm filled home. Plantation Shutters adorn the front rooms of the new build to compliment the contemporary facade. A mixture of Sheer Curtains with Blockout Roller Blinds, and Sheer Curtains with separate blockout lining, add calm vibes throughout the rest of the home.

DESIGN PARTNERSHIPS

It takes two.

We take great pride in being able to offer you the very best design and quality in fabrics and hardware by developing partnerships with leading brands, that like us, stand for excellence in performance, quality, and innovation.

LAURA ASHLEY
SINCE 1953

We believe strongly in giving back to the community.

We're proud to do this through a range of initiatives that all make a positive impact on the world. By supporting local and international programmes and people, we can make a real difference to those in need.

Rotary

Partnering with Rotary Australia + Rotary International to solve real problems for lasting change.

For more than ten years, **dollar curtains + blinds** has supported Rotary Australia and Rotary International organisations through the Rotary Donations In Kind programme.

Working closely with the Donations In Kind programme, **dollar curtains + blinds** has donated fabrics that have been distributed to people in need in countries including East Timor and North Cambodia. The fabrics are made into practical items such as clothing, rice carry bags and sanitary products.

A comprehensive programme featured in Siem Reap in North Cambodia through Rotary International, Opportunities of Development thru Art (ODA) and Days For Girls. Days For Girls is an organisation that focuses on mobilising girls and women through changing the status quo with quality care solutions, health education and income-generated opportunities.

The colourful and informative Days For Girls kits are distributed to students and include long-lasting, easy-to-care health and hygiene items. In conjunction with these kits, an educational session on health and safety is delivered that includes topics such as self-defence. The intention is that the assistance and knowledge accompanying this programme will inform the students all their lives.

SecondBite

We partner with SecondBite to end waste and hunger.

SecondBite rescues surplus fresh food and pantry staples from retailers, manufacturers and farmers and redistributes it to those in need. They aim to fight hunger and reduce food waste, creating a more sustainable and equitable society.

Join them in transforming lives through food. Together, every bite counts.

As an Australian-owned and family-operated business for more than 50 years, we value these partnerships which allow us to support local communities. Working with SecondBite we hope to continue making a valuable contribution to end hunger and give to people in need for years to come.

One Tree Planted

We partner with One Tree Planted to promote sustainability through reforestation.

One Dollar. One Tree. One Planet.

Through our donations to One Tree Planted, we're doing our part to plant thousands of trees across Australia to recover forests affected by the 2019-2020 Black Summer Bushfires, and to restore native habitat vital for wildlife.

Along with One Tree Planted and the Foundation for National Parks & Wildlife, we're supporting the Bushfire Recovery Nurseries project to replant trees in affected locations across Australia. Selected locations will focus on re-building habitats for affected species such as the black glossy cockatoo and koala.

As an Australian-owned and family-operated business for more than 50 years, we value these partnerships which allow us to support local communities. Working with One Tree Planted we hope to continue making a valuable contribution to reforest land and restore habitats for years to come.

"We appreciate the ongoing support of dollar curtains + blinds, and all the great work we have been able to do as a result of our partnership. Since our partnership began in 2021, their commitments have helped us to reforest key regions of Southwest Western Australia for ecological and habitat restoration."

ASHLEY LAMONTAGNE.
CAMPAIGN MANAGER.

Working in partnership with businesses, developers, builders + designers.

With a wealth of knowledge in window coverings gained over 55 years, we understand both commercial and residential interiors. We collaborate with our clients to provide attractive and practical solutions using the latest styles and fabrics.

You'll find **dollar curtains + blinds** in residential and commercial interiors ranging from private residences to multi-unit developments, offices, restaurants, hotels, resorts, retail environments, aged care facilities, hospitals and schools.

With one of the most diverse product ranges in the industry, we're able to offer extensive choices.

Partnering with us, you'll find our team has the years of technical knowledge and fabric expertise needed to ensure your project's success. Talk to us about Curtains, Blinds, Shutters, Outdoor and Automated window coverings.

- + Fire retardant fabrics, covering all specifications + required certificates

Building, buying off the plan or renovating?

We can provide a free estimated quote at any stage of your build. Simply provide final floor plans from your architect, builder or developer and we'll do the rest. When your build is complete we will visit and undertake a free check-measure just to be absolutely sure.

Common Questions

When should I request a quote?

Request an estimated quote when you have received final plans for your apartment or house from your architect, builder or developer. Final plans will ensure we can be as accurate as possible for you.

When your build is finished, an Interior Consultant will visit and undertake a free check-measure to ensure you receive a final quote that offers the best possible price.

Do you charge for this service?

We provide this service free of charge and you are under no obligation to proceed. We offer this service to customers within the serviceable area of our store locations.

Will the estimated quote be accurate?

Even though the estimated quote will be based on the final plans provided by you, it is indicative only as often things can change daily on site, especially when it comes to dimensions! This is why we like to double check everything we do and a final check-measure is done.

How will you know what product options, fabrics, and colours I would like?

Once you receive your estimated quote, you are welcome to visit a **dollar curtains + blinds** store and receive expert advice on what will suit your windows. Every store has a wide range of fabrics – in every possible colour and style – as well as product options making it easy for you to see what is available.

If my construction changes, even slightly, do I need a new quote?

In short, yes. We pride ourselves on accuracy and would be happy to offer you a new estimated quote free of charge, no obligations.

Got more questions? We're happy to help. Please call (03) 9237 1200 or visit our website at dollarcurtains.com.au
