- + Authentic 100% custom made handcrafting without any pre-fabrication or shortcuts
- + Australian Business Quality Award Winner
- + Best of Houzz Service Award Winner

## why choose dc+b venetian blinds

Venetian Blinds are a classic and when done well can really enhance a space. The difference in our Venetian Blinds is in the detail. We use a top of the line technically superior hardware system.

Perfected by years of extensive research and development, our operating system has been designed for precision. Our Blinds are also designed with extra componentry as standard, at no extra cost, to ensure the most durable and long lasting Venetian Blinds available.

- + Australian designed, Australian made
- + Custom made to fit any window or door size
- + Stringent quality control + testing
- + Child + pet safe controls
- + Practical + durable
- + Neat + stylish finish

- + Smooth + quiet operation
- + Complete control over blade angle, amount of light + privacy
- + UV protection + insulation, saves on energy bills

Made from timber or aluminium blades, our Venetian Blinds are modern and functional, offering excellent privacy, light control and ventilation. Easy to use, Venetian Blinds allow you to open and close the blades to any position and control the direction of sunlight throughout your room or home.

## select install options

Venetians can be recessed, or face fitted, meaning the Venetian Blinds can be installed inside the window frame or on the architrave bordering the window. In addition, Venetian Blinds can be locked into position at the bottom using a pin and bracket system which makes them suitable for glass doors or windows which are frequently opened and closed.

### FACE / ARC FIT

- + Blind installed on window frame (arc)
- + Improves blackout of light + privacy
- + When opened allows you to maximise your views + the natural light entering your home

### RECESS FIT

- + Blind installed inside window frame
- + Ideal choice if layering another product over your Venetians like Sheers
- + Important notes: If chosen without another blackout product layered on top then there will be light gaps between your Blinds + window frame. Venetians installed inside the recess will always be covering some of the window due to the stack at the top

### DOOR MOUNTED

- + Blind installed directly onto a door above the glass
- + One of the only products that can be directly installed onto a door
- + Can be held in place with pins at the bottom to prevent the blind from moving when the door is used

#### PARIS TIMBER VENETIAN BLINDS

- + Warm + timeless appearance of premium grade timber
- + 63mm blade co-ordinates 63mm Shutter blade
- + Excellent sound absorption qualities

#### WHITFIELD TIMBER-LIKE VENETIAN BLINDS

- + Timber like appearance, made from long wearing polystyrene
- + 63mm blade co-ordinates with 63mm Shutter blade
- + High quality + durable
- + Resistance to fading, cracking + peeling
- + Suitable to use in wet + damp areas
- + Perfect for areas with high humidity, extreme temperatures + direct sunlight
- + Ideal choice for kitchens, bathrooms + laundries

#### PRIVASEE ALUMINIUM VENETIAN BLINDS

- + Australian Design Award Winner
- + Durable aluminium with innovative D-Shape head rail
- + Exclusive crimping technique for tighter fit when closed + improved blackout
- + Ensures privacy, UV protection + insulation
- + Matching head + bottom rails for neat finish
- + Available in designer colours - neutrals + metallics
- + Ideal choice for kitchens, bathrooms + laundries

## colours

Colour plays an important role in interior design which is why we offer our Paris and Whitfield Venetian Blinds in a specially curated range of colours and stains. Or maybe you'd prefer the slimline Privasee Aluminium Venetian Blind where you can really maximise your design with a colour palette of neutrals and metallics!

## blades

## why choose dc+b panel blinds

Panel Blinds combine style, form and function which is perfect for an interior that embraces clean, uncluttered lines.

The difference in our Panel Blinds is in the detail + that's important given the major investment entailed in choosing your window coverings. Perfected by years of extensive research + development, our system has been designed for precision operation.

- + Australian designed, Australian made
- + High quality fabrics to suit any look that coordinate with our Roller Blinds + Roman Blinds
- + Custom made to fit any window or door size
- + Stringent quality control + testing
- + Child + pet safe controls
- + Practical + neat finish
- + Versatile + affordable
- + Smooth + quiet operation
- + Add the illusion of height to a room
- + Ideal for large windows + sliding doors

**EASY TO USE**  
Each connected  
panel moves  
in sequence

Always contemporary, they offer complete light and privacy control simply by sliding the panels across. Practical and affordable, they're ideal for sliding doors or large windows with a long drop or wide width. Perfect for creating consistency across all windows and doors throughout your home.

Very easy to use, each connected panel moves in sequence in one gliding action or you can choose to have the panels free floating and individually adjusted.

# our customisation

Choose your install, style, fabric, finish, control type + accessories to create your own Panel Blinds suited exactly to your needs  
+ all aussie-made with homegrown quality.

## STEP 1 select install options

Panel Blinds are best face fitted, this means that the Blinds are fitted on the front of the window frame. Face fitting allows us to design the stack of the Panels off the window, assuming there is space, to fully maximise your view.

### FACE / ARC FIT

- + Blind installed on window or door frame (arc) or wall
- + Improves blackout of light + privacy
- + When pushed across allows you to maximise your views + the natural light entering into your home
- + Ideal choice for doorways

- + Select how you would like your panels to stack
- + **Important Note:** Stacking options will vary depending on the size of your window

We have a variety of configurations and multiple channel systems available to suit various window sizes. Panels can be stacked back to maximise natural light or glide them across for total privacy and light control. Design options include stacking the Panels together from the left or right hand side or the Panels can be centre open so they are split to each side of the window.

## select style

### BLOCKOUT PANEL BLINDS

- + Blocks light + room darkening
- + Best for privacy + UV protection
- + Adds insulation + saves on energy bills
- + Ideal for bedrooms + private spaces

### SUNSCREEN + SHEER PANEL BLINDS

- + Softly filters light
- + Decorative + textured fabric range
- + Retains views + daytime privacy
- + Glare reduction
- + Sunscreen offers 80-97% UV Protection
- + Saves on energy bills

## select fabric

Fabric is an essential part of choosing your blinds. Our fabrics offer a window covering solution for every room in your home. From quality plain weaves to textured jacquards + a wide range of contemporary colours you're able to choose the fabric best suited to your light control + privacy needs.

## why our fabrics

- + Australia's largest fabric + colour range

## select finish

Ensure the bottom of your Panel Blinds have the right finishes to complete your look. Choose between a stitched pocket or a bottom rail which come in a selection of colours to suit your style.

## our base rails

- + No stitching for a clean finish + less light penetration
- + Provides weight to prevent movement from breeze
- + Controlled movement of blind during operation
- + Premium aluminium for added strength + durability

Oval Base Rail

D-Shape Base Rail

Fabric Wrap Base Rail

Plain Laith Base Rail

### CONTROL OPTIONS

- + Hand operated
- + Child + pet safe
- + Easy to use
- + Glide wand across track to open or close
- + Colour matched wands + tracks\*
- + Smooth, effortless + quiet operation

\*Excluding Birch White

## why choose dc+b vertical blinds

**Versatile and affordable. Vertical Blinds offer complete light and privacy control with a simple rotation of the blades.**

Our Vertical Blinds are manufactured with the market leading EOS Helix Vertical Track System which enhances the efficiency and functionality of the Blinds. A key feature of the EOS Helix Vertical Track System is the market leading traversing wand. The ultimate in child safety, the traversing wand allows you to glide the wand across the track to open and close the Blinds or twist the wand to tilt the blades.

It has an exclusive clutch function in the hook to prevent damage under force, and the gear has been designed to provide a smoother operation. Its aluminium construction allows for easier handling and more versatility through split and centre struck configurations with one wand rather than two.

- + Australian designed, Australian made
- + High quality fabrics to suit any look
- + Custom made to fit any window
- + Stringent quality control + testing
- + Child + pet safe controls
- + Practical + neat finish
- + Versatile + affordable
- + Smooth + quiet operation
- + Add the illusion of height to a room
- + Match with a pelmet to conceal hardware components
- + Complete control over blade angle + amount of light/privacy
- + Available in an extensive range of colours
- + Ideal for large windows + sliding doors

## select install options

Always practical, Vertical Blinds are ideal for large windows with a long drop or wide width. Available with a centre open, centre stack or one way opening option which allows blades to be pulled back to the left or right hand side, making them ideal for sliding doors. Ideal for co-ordinating all windows and doors throughout your home.

### FACE / ARC FIT

- + Vertical Blind installed on window frame (arc) or wall
- + Improves blackout of light + privacy
- + When pulled across allows you to maximise your views + the natural light entering into your home
- + Ideal choice if installing our vertical blinds by itself on your window
- + Ideal choice if using on a doorway
- + Face fitting allows you to fully stack back the blades and if there is room either side of the window the blades can be taken past the window to maximise your view

### RECESS FIT

- + Blind installed inside window frame
- + Provides a neater look that doesn't encroach on the room
- + Ideal choice if layering another product over your Vertical Blinds like a Sheer Curtain
- + Important note: If chosen without another blackout product layered on top then there will be light gaps between your Vertical Blind + window frame
