- + Peace of mind with our three year warranty
- + Exceptional quality which provides long term value + increases your property's appreciation
- + Market leading materials, manufacturing processes, advanced technology + quality control systems
- + Authentic 100% custom made handcrafting without any pre-fabrication or shortcuts
- + Australian Business Quality Award Winner
- + Best of Houzz Service Award Winner

Venetian Blinds are a timeless classic, and when crafted with care, they can truly elevate a space. What sets our Venetian Blinds apart is the attention to detail! We use a top-of-the-line, technically superior hardware systems for unmatched quality and performance.

Perfected by years of extensive research and development, our operating system has been designed for precision. Our Blinds are also designed with extra componentry as standard, at no extra cost, to ensure the most durable and long lasting Venetian Blinds available.

- + Australian designed, Australian owned
- + Custom made to fit any window or door size
- + Stringent quality control + testing
- + Child + pet safe controls
- + Practical + durable
- + Neat + stylish finish

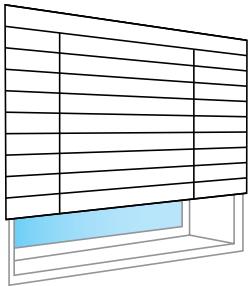

- + Smooth + quiet operation
- + Complete control over blade angle, amount of light + privacy
- + UV protection + insulation, saves on energy bills

Made from timber, aluminium or polystyrene composite blades, our Venetian Blinds are modern and functional, offering excellent privacy, light control and ventilation. Easy to use, Venetian Blinds allow you to open and close the blades to any position and control the direction of sunlight throughout your room or home.

select install options

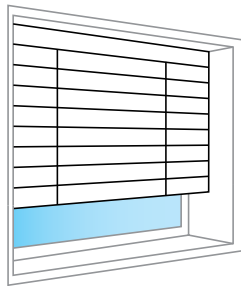

Our Venetian Blinds can be installed in two ways: recessed within the window frame for a seamless look or face-fitted onto the architrave for a more defined style. For added stability, they can also be secured at the bottom with a pin or bracket system, ideal for glass doors or frequently used windows.

FACE / ARC FIT

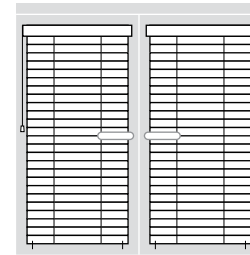

- + Blind installed on window frame (arc)
- + Improves blockout of light + privacy
- + When opened allows you to maximise your views + the natural light entering your home

RECESS FIT

- + Blind installed inside window frame
- + Ideal choice if layering another product over your Venetians like Sheers
- + Important notes: If chosen without another blockout product layered on top then there will be light gaps between your Blinds + window frame. Venetians installed inside the recess will always be covering some of the window due to the stack at the top

DOOR MOUNTED

- + Blind installed directly onto a door above the glass
- + One of the only products that can be directly installed onto a door
- + Can be held in place with pins at the bottom to prevent the blind from moving when the door is used

select style

- + Compact unit for clear + unobstructed view

why choose dc+b panel blinds

Panel Blinds combine style, form and function which is perfect for an interior that embraces clean, uncluttered lines.

The difference in our Panel Blinds is in the detail + that's important given the major investment entailed in choosing your window coverings. Perfected by years of extensive research + development, our system has been designed for precision operation.

- + Australian designed, Australian made
- + High quality fabrics to suit any look that coordinate with our Roller Blinds + Roman Blinds
- + Custom made to fit any window or door size
- + Stringent quality control + testing
- + Child + pet safe controls
- + Practical + neat finish
- + Versatile + affordable
- + Smooth + quiet operation
- + Add the illusion of height to a room
- + Ideal for large windows + sliding doors

EASY TO USE
Each connected panel moves in sequence

Always contemporary, they offer complete light and privacy control simply by sliding the panels across. Practical and affordable, they're ideal for sliding doors or large windows with a long drop or wide width. Perfect for creating consistency across all windows and doors throughout your home.

Very easy to use, each connected panel moves in sequence in one gliding action or you can choose to have the panels free floating and individually adjusted.

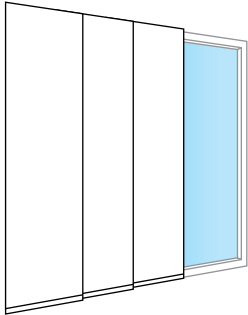

our customisation

Customise your Panel Blinds to perfectly suit your needs by selecting your install, style, fabric, control type, and accessories. Proudly Australian Made, ensuring high quality craftsmanship.

STEP 1 select install options

Panel Blinds are best face fitted, this means that the Blinds are fitted on the front of the window frame. Face fitting allows us to design the stack of the Panels off the window, assuming there is space, to fully maximise your view.

FACE / ARC FIT

- + Blind installed on window or door frame (arc) or wall
- + Improves blockout of light + privacy
- + When pushed across allows you to maximise your views + the natural light entering into your home
- + Ideal choice for doorways

STEP 2 select stacking options

- + Select how you would like your panels to stack - see next page!

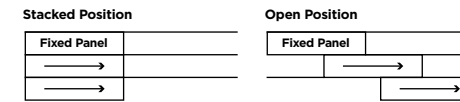

Important Notes:

- + Stacking options will vary depending on the size of your window.
- + We have a variety of configurations + multiple channel systems available to suit various window sizes.
- + Panels can be stacked back to maximise natural light or glide them across for total privacy + light control.
- + Design options include stacking the Panels together from the left or right hand side or the Panels can be centre open so they are split to each side of the window.
- + The panels are attached by velcro so you can have 2 sets for seasonal change - rotate between Blockout + Sunscreen or Sheer fabrics.

- + Oeko-Tex® Standard 100 Certified fabrics available, providing extra peace of mind

STEP

5

select finish

Ensure the bottom of your Panel Blinds have the right finishes to complete your look. Choose between a stitched pocket or a bottom rail which come in a selection of colours and shapes to suit your style.

our base rails

- + No stitching for a clean finish + less light penetration
- + Provides weight to prevent movement from breeze
- + Controlled movement of blind during operation
- + Premium aluminium for added strength + durability

Oval Base Rail

D-Shape Base Rail

Fabric Wrap Base Rail

Plain Laith Base Rail

CONTROL OPTIONS

- + Hand operated
- + Child + pet safe
- + Easy to use
- + Glide wand across track to open or close
- + Colour matched wands + tracks*
- + Smooth, effortless + quiet operation

*Wands unavailable in Birch White

why choose dc+b vertical blinds

Versatile and affordable. Vertical Blinds offer complete light and privacy control with a simple rotation of the blades.

Our Vertical Blinds are manufactured with the market leading EOS Helix Vertical Track System which enhances the efficiency and functionality of the Blinds. A key feature of the EOS Helix Vertical Track System is the market leading traversing wand. The ultimate in child safety, the traversing wand allows you to glide the wand across the track to open and close the Blinds or twist the wand to tilt the blades.

It has an exclusive clutch function in the hook to prevent damage under force, and the gear has been designed to provide a smoother operation. Its aluminium construction allows for easier handling and more versatility through split and centre struck configurations with one wand rather than two.

- + Australian designed, Australian made
- + High quality fabrics to suit any look
- + Custom made to fit any window
- + Stringent quality control + testing
- + Child + pet safe controls
- + Practical + neat finish
- + Versatile + affordable
- + Smooth + quiet operation
- + Add the illusion of height to a room
- + Match with a pelmet to conceal hardware components
- + Complete control over blade angle + amount of light/privacy
- + Available in an extensive range of colours
- + Ideal for large windows + sliding doors

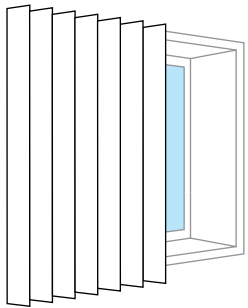

select install options

Always practical, Vertical Blinds are ideal for large windows with a long drop or wide width. Available with a centre open, centre stack or one way opening option which allows blades to be pulled back to the left or right hand side, making them ideal for sliding doors. Ideal for co-ordinating all windows and doors throughout your home.

DETAILS

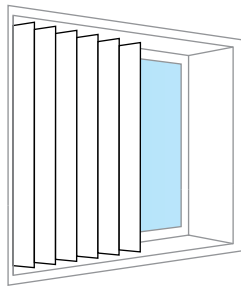

Depending on the fabric, we craft our blades with welded seams to reduce light infiltration

FACE / ARC FIT

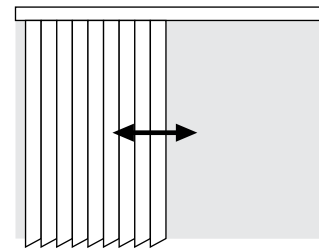

- + Vertical Blind installed on window frame (arc) or wall
- + Improves blackout of light + privacy
- + When pulled across allows you to maximise your views + the natural light entering into your home
- + Ideal choice if installing our vertical blinds by itself on your window
- + Ideal choice if using on a doorway
- + Face fitting allows you to fully stack back the blades + if there is room either side of the window the blades can be taken past the window to maximise your view

RECESS FIT

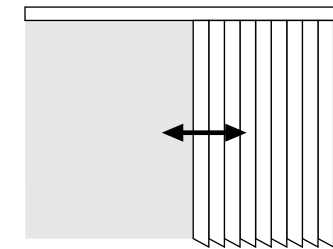

- + Blind installed inside window frame
- + Provides a neater look that doesn't encroach on the room
- + Ideal choice if layering another product over your Vertical Blinds like a Sheer Curtain
- + Important note: If chosen without another blackout product layered on top then there will be light gaps between your Vertical Blind + window frame
